

High Speed, High Quality Imaging with an Innovative Vacuum Transport

SecapTM V-Jet **Vacuum Print Station with Cabinet**

Designed for total control, the SecapTM V-Jet is equipped with a unique self-adjusting transport deck that provides mailers with improved flexibility and control for handling the most difficult media. This print system is an excellent solution for in-plant printers, lettershops, and mail production environments.

- Flexible transport deck accommodates small variations in media thickness
- Heavy duty construction for long lasting performance
- Easy maintenance and low cost, with no special operator training
- Delivers flawless registration with speeds up to 24,000 pieces/hour
