

T-1000

Conquest T-1000

Only Conquest comes fully armed with total electronics and non-impact printing to handle all of your mailing needs.

The T-1000 sets new standards for features and ease of use.

- The first meter to introduce thermal transfer printing, which completely replaces the mess of regular ink with consistently clean and clear images.
- Automatic date setting. Eliminates the daily chore of changing the meter date.
- Digital memory allows storage of up to six customized advertisements. This feature allows you to put your choice of company name, products and promotions on each letter with simple push-button convenience.
- Departmental Accounting lets you monitor postage expenses in nine areas of your business.
- Connects to your choice of two optional, fully featured electronic scales. When interfaced, just place your mail on the scale and it sets the meter for you.

Seal and meter your envelopes in one simple step with the optional envelope sealer pictured here.

- With TELESET, the entire postage resetting process runs automatically through a built-in, self-dialing modem. In less than a minute, your meter is loaded and ready to go.

Conquest comes fully armed to quietly conquer all your mailing battles.
